

INNOVATE YOUR FUTURE

INNOVATIVE[®]
AUTOMATION. LEAD GLOBALLY.

INT. CONTROLS PROGRAMMER

POSITION OVERVIEW

Innovative Automation is looking for an Intermediate Controls Programmer to join our team of Innovators. In this position, you will program and develop software for the operation of automated equipment and for the manipulation of associated data.

In this role, you will be learning and teaching every single day and you should be excited about that. You will quickly become a core part of the Innovative team and an active decision maker helping to guide our output. Better yet, you will act as a mentor and leader to those working with you.

KEY RESPONSIBILITIES

- Communicate the status of current projects with management, team members, and clients.
- Learn and use Innovative Automation's scheduling and budget requirements, and meet all time and material allowances.
- Apply basic ladder logic principles, including sequencer and analog control for I/O systems in excess of 128 I/O.
- Program and interface basic high-end PLC commands and HMI usage for projects, networked components, motion control, vision, robotics, and weld control.
- Reviews machine function with senior electrical developer, mechanical design personnel, and mechanical developer associated with the project.
- Write and document programs using appropriate software based on drawings, manuals, and specifications of a project.
- Occasional travel within North America.

QUALIFICATIONS

- Minimum Diploma in Electrical Engineering or equivalent specialized experience.
- Minimum 2+ years' experience within the automation or automotive manufacturing field.

PERKS

- Live and work in an awesome community. No more traffic headaches or delays.
- Great benefits package.
- Work in a brand new, state of the art facility.
- Competitive salary.
- Amazing work culture.
- Safe and responsible environment that exceeds applicable industry standards.
- Mentorship and growth opportunities.

HOW TO APPLY

Do you have the right skills, attitude and approach for this position? Let's connect! Our hiring process begins when you submit a cover letter and resume detailing why you believe Innovative Automation is the best next step (or start) of your career. We can't wait to hear from you.

WHO IS INNOVATIVE AUTOMATION?

Innovative Automation is about more than a job or a product. It is about building a team of passionate and resourceful Innovators who strive to create cutting edge, quality, manufacturing solutions. More importantly, we are a family of driven individuals who love what we do and the community we work and live in.

WHO ARE YOU?

- You don't believe in dead ends; there is always a solution.
- You want to be involved in building cool things.
- You are confident and driven, but also a true team player.
- You aren't afraid to ask for help.
- You can't wait to learn new things and, more importantly, share that knowledge.
- You strongly believe that where there's a will, there's a way.
- You feel responsible for understanding and meeting expectations. It is important to you that you do a good job.
- You believe in professional and personal development.
- You thrive in fast paced environments.
